LinkedIn: linkedin.com/in/ravindulayanga

Portfolio: ravindulayanga.github.io

Software Engineer with a BSc (Hons) in Computer Science and hands-on industry experience gained through an industrial internship. Skilled in building backend systems, full-stack web applications, and RESTful APIs, with a strong focus on clean, maintainable code and problem-solving. Motivated by continuous learning and professional growth.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Java, Python, PHP, SQL
- **Web & Frontend:** HTML5, CSS3, React.js, Next.js, Tailwind CSS, Bootstrap
- **Backend Frameworks:** Node.js, Flask, CodeIgniter 4
- **Databases:** PostgreSQL (Neon), MySQL, SQL Server
- **Architecture & Core Concepts:** RESTful APIs, OOP, MVC, Machine Learning Integration
- **Developer Tools:** Git, GitHub, Postman, VS Code, IntelliJ IDEA

PROFESSIONAL EXPERIENCE

Software Engineering Intern - CodeOne-X (JFS ICT Services Pvt Ltd)

Oct 2023 - Sep 2024

- Developed and maintained production-ready web applications using CodeIgniter 4, implementing RESTful APIs and backend business logic.
- Built a Human Resource Management System (HRMS) using CodeIgniter 4 and Bootstrap 5, supporting employee records and internal workflows.
- Worked on a legacy Job Application Management System built with CodeIgniter 2, performing bug fixes, module enhancements, and controlled refactoring for improved stability and maintainability.
- Designed and maintained database-driven systems using MySQL and SQL Server, including schema updates, query optimization, and CRUD operations.
- Developed frontend components using Vue.js, Tailwind CSS, and Bootstrap, ensuring responsive and user-friendly interfaces.
- Developed and maintained WordPress-based corporate websites, including custom pages, performance optimization, SEO improvements, and security updates.

EDUCATION

BSc (Hons) Computer Science - Upper Second Class Honours

University of Westminster, UK (Informatics Institute of Technology, Sri Lanka)

2022 - 2025

SELECTED PROJECTS

SmartNotes AI - AI Note Summarization Platform

Individual Project

- Built a full-stack Next.js 16 application featuring integrated AI-powered note summarization, secure Google OAuth, and a serverless Neon PostgreSQL database.

Technologies: Next.js 16, Auth.js, Neon PostgreSQL, Tailwind CSS

MixCap - Multimodal Captioning System

Final Year Research Project

- Developed a novel deep learning model that fuses visual and textual data to generate accurate video captions.
- Built and deployed a full-stack web interface using React and Flask, allowing users to interact with the model via a RESTful API in real-time.

Technologies: Python, PyTorch, Flask, REST APIs, Multimodal Deep Learning

MediTrack – Pharmacy Management System

Individual Project

- Developed a Java and MySQL-based application to streamline pharmaceutical inventory tracking, sales processing, and secure user authentication.

Technologies: Java, MySQL, OOP Principles

Hybrid Employee Attrition Predictor

Machine Learning Project

- Engineered a high-accuracy machine learning pipeline to predict employee turnover, utilizing SMOTE for data balancing and extensive feature engineering to optimize performance on real-world HR datasets.

Technologies: Python, Scikit-learn, Machine Learning, Data Analysis

Personal Portfolio Website

Individual Project

- Designed and developed a responsive personal portfolio to showcase projects, skills, and experience, focusing on clean UI and maintainable structure.

Technologies: HTML, CSS, JavaScript, Tailwind CSS

COMPETITIONS

- **Finalist (Top 7)** - Haxmas 2023 intra-university hackathon
- **Participant** - Microsoft Imagine Cup 2023
- **Competitor** - CodeSprint 7.0, IEEE IIT
- **Participant** - Google Hash Code 2022

EXTRACURRICULAR ACTIVITIES

- **IEEE Computer Society, IIT** - Organizing Team Member (IndustPro 2.0) & Volunteer.
- **Rotaract Club of IIT** - Interactors In-Charge (Trailblazer '22)/ General Volunteer (Parallax '22).
- **Mozilla Campus Club, IIT** - Media Team Volunteer (OpenHack '22).
